Cat Atelier from Lifestyle by Am8

“Where Cats
Feel Home,
and Homes
Stay Stylish.”

by Am8ience Design

Welcome to Little Paws, a boutique pet design brand under Am8ience Designs.

We create artistic, functional, and eco-friendly homes for pets — starting with our signature cat houses. Every piece is carefully designed to fit your pet's unique behavior while blending beautifully with modern interiors.

At Little Paws, we believe pet furniture should not only be comfortable but also a reflection of love, lifestyle, and sustainability.

INTRODUCTION

Little Paws creates artistic, functional, and eco-friendly pet homes. Each product is thoughtfully designed with love, based on animal behavior, to blend with modern interiors while providing ultimate comfort for your furry companions.

OUR STORY

Little Paws was born from a simple idea: our pets deserve homes as special as ours.

Led by Benny Djohan, a senior architect and designer with over 25 years of international experience, Am8ience Designs expanded its creative vision into the world of pet living.

As passionate pet lovers, we saw the need for pet houses that go beyond cages — combining behavior-based design, eco-conscious materials, and aesthetic value. From the very first sketches, Little Paws has been about turning design into a lifestyle for both pets and their humans.

OUR MISSION

Our mission is simple yet heartfelt:
To design and craft safe, stylish, and sustainable homes for pets, while enriching the bond between animals and their owners.

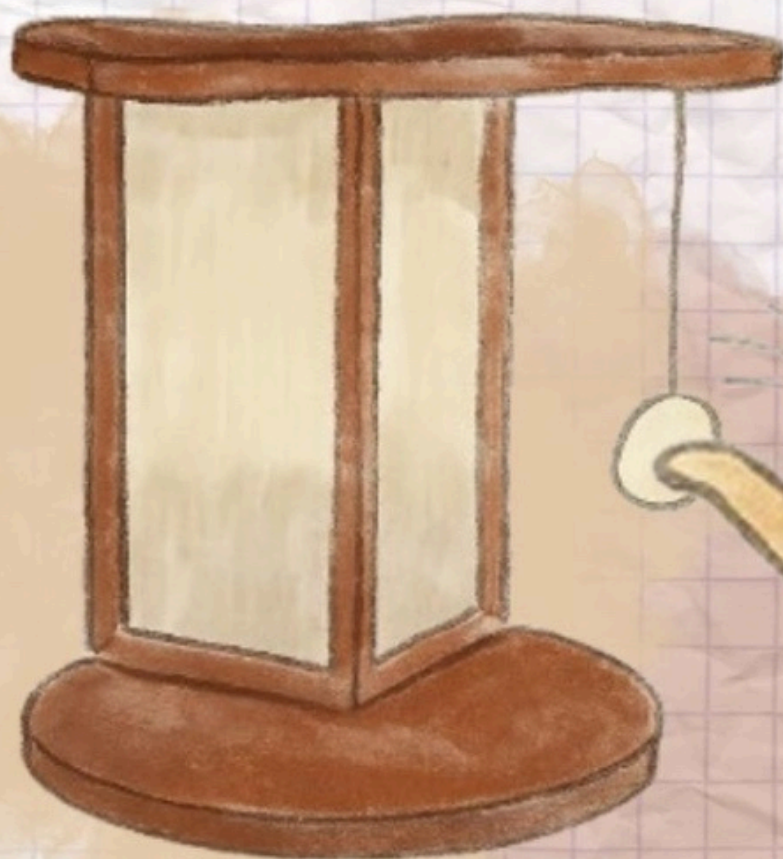

We are committed to:

- Using eco-friendly materials
- Creating behavior-based designs tailored to each pet's needs
- Offering artistic and functional furniture that fits modern homes
- Spreading love through every detail we make

At Little Paws, every product tells a story — of comfort, companionship, and care.
